

Focus on other clinical priorities – time back, money saved

Implement a programme of high-volume, low complexity medication switches across your health system – save time, capacity and resource.

“Optum allowed us to direct patients to them (for switching back where appropriate), which was very welcome.”

– Practice Manager

More than **150 GP practices** successfully worked with us

9,000 patients reviewed including safety reviews¹

£2.9M annualised savings for the NHS supporting other primary care initiatives²

“Less than 1% effort compared to doing it ourselves”

– Dr. James Read

As little as 12 weeks to deliver in-year savings

Zero upfront cost “it pays for itself” and releases cash³

“Flexible approach to working with myself and our team, adaptable SOP’s and openness to work with us to suit our practices and processes.”

– Senior Pharmaceutical Advisor
Primary Care and Place

Let Optum® help you generate savings and make your life easier.
